

**STABLE VOLTAGE**  
**UNMATCHED**  
**STABILITY!**

Uniguard  
STABILIZER

## Servo Controlled Voltage Stabilizers

**Capacity Ranges**

05 KW to 500 KW

**Voltage Range**

Input: 170V to 280V

Output: 220V  $\pm$  5%

## Key Features to Highlight

- Precision Voltage Regulation: Maintain a steady voltage output with servo technology.
- Energy Efficient: Minimizes energy consumption while ensuring reliable performance.
- Wide Input Voltage Range: Protects against fluctuations, spikes, and surges.
- Durable and Reliable: Built with high-quality materials for longevity.
- Advanced Microcontroller Technology: Intelligent operation with quick response times.

## Applications

- Industrial machinery
- Medical equipment
- Home appliances
- Whole house protection
- Data centers
- Retail establishments
